

September Addition Facts Calendar

Directions: Study no more than four or five facts per week. Record the amount of time in minutes, the code indicating how you studied them, and have your parent initial it. Please note that at least one time per week you must write the facts you targeted 10x each, taking care to write each whole problem one at a time, saying it as you write it "Eight plus three equals eleven." Work on no more than five addition facts per week. Please write them in on the days you studied them. Stay on addition until you get a new Target!

Codes: **W10**=Wrote 10x each (required once per week!); **PC**=Practiced on computer; **G**=Practiced using a game; **FC**=Made flashcards; **PA**=Practiced with Parent; **O**=Other (explain)

Sun	Mon	Tue	Wed	Thu	Fri	Sat
