"You have to do math to know math"

MULTIPLICATION MATH FACTS CALENDAR

DECEMBER 2011

NOTES:

Study no more than FOUR different facts per week, 10 minutes a day.

Multiplication target facts are shown for each week.

1. If you have mastered the ones shown for the week but need to work on other multiplication facts, please write them in on the days you studied them.
2. Stay on multiplication until you get a new target!

Record your practice.

1. Record the amount of time in minutes.
2. Record the code indicating how you studied them. The codes are
   - W = Wrote them 10x each
   - C = Practice on computer
   - G = Practiced using game
   - F = Made/used flashcards
   - P = Practiced with parent
   - O = Other (explain)
3. Have your parent initial it.

Write the targeted facts 10 times each once a week.

1. At least once per week write the targeted facts 10x each.
   - Write the whole problem, one at a time.
   - As you write it, say it out loud. For Example, "Six times three equals eighteen."
2. Record the code W10 that day.

Have ***fun*** with them!
